# I. How to register on GATEtutor.in

# Step 1

To register on GATEtutor visit http://gatetutor.in

Type "gatetutor.in" in google search and just click on top searched result

# > GATEtutor.in

By entering in the GATEtutor.in you can explore the world of "GATE "related all the information like exam preparations, mock tests, practice test, test assign option, sharing & get connected to the all engineering students around the India.

You can make friends from engineering colleges all over the country. There are multiple options to interact with them for the preparation of GATE like timeline, post sharing, file uploading and much more features.

You can sign up with the GATEtutor by three different user types are as follows:

- 1. College Student
- 2. Institute or College Admin
- 3. Pass out student

#### 1. College Student

If you are an existing student of any engineering college of any branch, you can do free sign up with GATEtutor as a college student.

#### 2. Institute or College Admin

If you are a faculty member, HOD or Principle, you can sign up with GATEtutor free. There are lot of features are given to the Admin of an engineering college like add & edit students, lock & unlock students, assign the tests, generate reports, sharing the study material online & much more.

#### 3. Pass out student

If you are a passed out student from the college and preparing for the GATE then you can sign up free as a Pass out student. You can give the Study, practice tests, make friends & share & download material related to GATE online & much more.

GATEtutor is a unique platform to connect, study, share information, preparation, download the materials related to the GATE exams.

Get connected with GATEtutor and start your journey towards the success in GATE.

# Step 1(1) Passout Student Registration If you want to register as a "Passout Student", click on third menu from drop down list.

Following screen will appear

# c) Study Groups

A **study group** is a small group of people who regularly meet to discuss shared fields of study related to GATE online. User can create multiple global groups.

#### **Global Group**

When a user is on his/her own timeline & creates a group by clicking on "Add New Group" is created as a global group. You can also create multiple groups which will be global groups. You can join the members into the group from all over the engineering colleges in India but from the same the department only.

Go to your name tab & click on it. You will appear the "Add New Group" menu as follows

When the global group is created, you will redirect to that group's timeline as follows

Now you are on group timeline, so you will appear some changes in tabs. You can see the **Members(Join Members, Members)** is a new tab seen here instead of **Friends(Invite Friends, Friends)**.

You can also check that the new global group is created in the "Study Groups"

Click on "Home" to go back to your own timeline.

## d) Upgrade Your Account

When you register as a Passout Student at first time, it is a free beginner version. Here you can access the features of GATEtutor like practice tests, subject & topic test. But it has a limited access.

# b) Ask a Question/Gallup Poll

Ask a question in a "**Gallup Poll**" is a unique idea for asking doubtful questions & get answers from friends consecutively on own timeline. You can ask any questions in the Gallup Poll by providing multiple choice answers to choose the correct answer on own timeline. Where your friends can give the answers & solve the problem as well as comment their opinions below the question.

You can also upload the image for the questions and options separately.

#### Click on Gallup Poll

# 2) Study Center

## a) General Info

It is a unique studying method provided by the GATEtutor.

In study center, just choose one option between General Aptitude and Electrical Engineering. Then select the **"Subject**" & **"Topic**", choose marks & question type. Now, you can start to study the questions.

Choose one of the answers that you know about the question, if it is correct then it will be visible as green check mark otherwise it will shown as wrong cross ahead the question. If you have any doubt about the question, you can see the explanation instantly on that page and if you feel the question is important for you, you can mark it as an important.

In the Study Center you can see & solve the questions under that subjects and topics which are added by you own also.

#### Select Subject & Topic

## c) Advance Search

If you don't remember the subject & topic in the study center or if you want the questions from random subjects or topics, you can use the "**Advance Search**".

It is a search bar where you have to put just a keyword related to the subject and topic; then whole questions related that keyword will be seen on the screen.

Click on the "Advance Search", you will appear following window

You can choose from main menus like General Aptitude & Electrical Engineering to search from.

GATEtutor User Manual	Page 47

🥥 Satyajeet :: Study Center 🛛 🗙 🕂 σ × C Q. Search 🔶 🛞 gatetutorin/Fav 合自 🗍 🕈 🕈 🛡 = Most Visited @ Getting Started **GATE tutor** Setynjeet - Hello Setynjeet -Sup O General Apptitude ® Electrical Engineering Back Q. Heat ж Satys Favourities Timeline Study Center Practice Test Test Center Store Friends 🛋 Invite Friends M Friends O Ask me anything ~ 1 40 ENG 1 0

Enter the keywords related to the subjects & topics then click on "Go"

You will get all the data from that keyword like Subject, Topic & related questions.

# 5) Store

Store is the platform for the user to upload & download the study material globally. If you upload any file, it will appear on your timeline & friend's timeline also. If you want to download that file from your timeline just click on "**Download**" just below the file & your file will be downloaded and saved.

Select the file to upload, write the description under for the file & click on "**Upload**" to upload any file or document from own Timeline.

Click on "Upload" to upload the file. After uploading file successfully click on "Close" to continue.

The file will be uploaded & now available to download for other users like your friends.

You can also share this file on friend's timeline & group timeline as well.

## **IV. Friends**

"Friends" is a tab to make new friends from all of the engineering colleges in India with same department. You can invite the students to whom you want to make friend. You can also receive the friend request from other students which you can accept or ignore. If you send a friend request to any student and that student accepts your friend request then both of you will become friends. If you get any friend request from any student and you accept it then that student will become your friend. You can also check your friend list by clicking on "Friends".

1) Invite Friends (On Own Timeline)

If you click on the "**Invite**" in front of the username, a friend request will be sent to that user. If that student accepts the friend request then that student will become your friend & will be seen in your friends list.

(NOTE: If you are on your own timeline then only you can see the Friends option)

#### 2) Friends (On Own Timeline)

Here, it shows how many friends are connected with you.

O Satyajeet :: Friends × +								-	a	×

## V. Test Settings

Test settings are the test tab in the GATEtutor under which you can create multiple tests under it. User can create & assign the tests in Test settings. If you are a student then you can create and assign a test to yourself and your friends. (**NOTE:** If you are on your own timeline, you can assign the test to your friends & yourself own)

**Manual Test**: In the manual test, you can create the test manually by choosing the questions from various topics under same subject.

**Random Test:** In the random test, you can create the test randomly where the GATEtutor chooses the topics randomly for that subject & adds the questions for the test randomly.

There are three types of Test: 1) Subject Test (Manual/Random)

2) Topic Test (Manual/Random)

3) Mock Test (Manual/Random)

#### 1) Subject Test

#### a) Manual Subject Test

In the Manual subject test, you can create the test manually by choosing the questions from various topics under that Subject.

Select "subject Test" & choose from these options -1) Manual, 2) Random

### **VI. Masters**

Masters menu is the all in one operational platform for all the users like passout students to add their own GATE related data individually. User can add & edit subjects, add & edit topics, upload questions, and add & edit summary also on the GATEtutor from own Timeline. User can add his own subjects, topics related to GATE. User can also add & upload the questions & give tests on that subjects & topics which are added by him/her.

Choose General Aptitude or Electrical Engineering to add subject under it.

#### 1) Add and Edit Subject

### **VII. Reports**

"Reports" is a tool which is used to tally & comparison of the performance and activity of the user at the same time on GATEtutor. User can generate the reports as per performance like **Friend wise** and **Test wise** from his/her own Timeline. User can also see his/her activity log in report format.

## 1) Performance Analysis (On Own Timeline): To see performance of friends and

yourself as friend wise & Test Wise Click on **"Performance Analysis"** 

#### Choose the options between: 1) Friend Wise 2) Test wise

#### **VIII. STUDY GROUPS**

A **study group** is a small group of people who regularly meet to discuss shared fields of study related to GATE online. User can create multiple global groups.

#### **Global Group**

When a user is on his/her own timeline & creates a group by clicking on "Add New Group" is created as a **global group.** You can also create multiple groups which will be global groups also. Under the global group you can join the members into the group from all over the engineering colleges in India but from the same department only.

## IX. TOOLS

Tools are very useful in a product which we are working on, instead of using another object or application. GATEtutor is an online web portal for GATE. So it has provided the useful tools under the single hood which are as follows:

1) Unit Converter
 2) Universal Constant
 3) Formulae

#### 1) Unit Converter

	in/Favorities/Timeline/Home/4886					Q. Se	MILLON	н	0		-

You can also delete an image uploaded in the "Ask Doubt"

Click on "Delete" to remove the image from "Ask Doubt" menu.

# b) Ask a Question/Gallup Poll

Ask a question in a "Gallup Poll" is a unique portal for asking questions, answering questions consecutively. You can ask any topic related questions in the Gallup poll by providing multiple choice answers or options to choose the correct answer. Where your group members can give the answers & solve the problem as well as comment their opinions below the question on group timeline.

You can also upload the image for the questions and options separately.

#### Click on Gallup Poll

You can share the post on friend's timeline from the group timeline.

Click on the "Share on a friend's Timeline" & choose the friend's name to share the post

After choosing the both sharing options, click on the "**Share Post**" & go to that friend's timeline to check the post that you have shared.

You can also share the post in a group where you are member of that group or the group is created by you.

Now, select an option to choose where you want to share the post.

e.g. - Click on the Share in a Group

Choose the name of group on whose timeline you want to share the post

# 2) Study Center

## a) General Info

It is a unique studying method provided by the GATEtutor.

In study center, just choose one option between General Aptitude and Chemical Engineering on Group Timeline. Then select the "**Subject**" & "**Topic**", choose marks & question type. Now, you can start to study the questions.

Choose one of the answer that you know about a question, if it is correct then it will be visible as green check mark otherwise it will shown as wrong cross. If you have any doubt about the question, you can see the explanation instantly on that page and if you feel that the question is important for you, you can mark it as an important.

In the Study Center you can see & study the questions under that subjects and topics which are added by you own on group timeline also.

Choose from main menu like General Aptitude or Electrical Engineering stream for the study.

#### Select subject & Topic

Select "Any marks" question like 1 mark or 2 marks.

#### Select "Any marks"

Choose "All Questions" to study more questions.

Choose questions from the different types of sources.

## b) Summary

When you click on "**Summary**", it shows all the fundamentals & properties of the "**Topic**" that you have selected for the study on group timeline. It is helpful to read & understand the fundamentals in short period of time.

When you click on the "Summary", the window appears as follows

If you have any doubt about any questions, you can also see the explanation by clicking on "**Explanation**" just below the question as follows.

Click on "Close" to continue.

You can sort the questions by their importance or priority also. If you want to mark the question as an important question then click on "**Mark IMP**". It will be added into the "**IMP Marked By you**" question type.

If you want to remove the "**Mark IMP**" tags from the question & remove from the list of imp questions just click on the "**Unmark IMP**". The Imp mark tag will be removed & it will be removed from imp questions list.

You can check that questions which are marked as Imp for study. To view IMP questions, choose that subject & Topic to view "**IMP marked by YOU**"

Click on "Delete" & Confirm by clicking on "Yes" & the file will get deleted from the Store.

## XI. Members (On Group Timeline)

#### 1) Join Members (On Group Timeline)

Join members is an idea to add the members in the group globally to expand the group. You can search new members & connect with them from the engineering colleges all over the country; but with same department only from your group timeline.

If you click on the "join" in front of the username that member will be added into the group directly

### 2) Members

Here, it shows how many members are connected with you in the group

If you want to remove the member from the group, click on "**Remove**", that member will be removed from the group.

## XII. Test Settings (On Group Timeline)

Test settings are the test tab in the GATEtutor under which you can create multiple tests under it. You can create & assign the tests to your group members in Test settings. If you are a student then you can create and assign a test to yourself and group members. (**NOTE:** If you are on your own timeline, you can assign the test to your friends & yourself own)

**Manual Test**: In the manual test, you can create the test manually by choosing the questions from various topics under same subject.

**Random Test:** In the random test, you can create the test randomly where the GATEtutor chooses the topics randomly for that subject & adds the questions for the test randomly.

There are three types of Test: 1) Subject Test (Manual/Random)

2) Topic Test (Manual/Random)

3) Mock Test (Manual/Random)

### 1) Subject Test

#### a) Manual Subject Test

In the Manual subject test, you can create the test manually by choosing the questions from various topics under that Subject.

Select "subject Test" & choose from these options -1) Manual, 2) Random

Select "Manual" to create Manual Subject Test

Choose the test for by clicking on given radio buttons for General Aptitude or Electrical Engineering test.

Ask me anything	● へ 見 40 ENG	17:18 25/10/20	16	1

Fill all the details like Time, Number of questions, Start and End date, Start and End time etc. If you want to give or assign the test by negative marking system then click on checkbox of "**Apply Negative Marks**"

You can choose questions from multiple options as follows:

- 1) All Questions Shows the entire subject & topic related questions.
- 2) College Admin It shows the questions added by college admin.
- 3) **GATEtutor** It shows the questions from GATEtutor.
- 4) **Only for Test** It shows the questions are only for test not from other sources.

Choose "Questions by" to select the questions from as above.

### XIII. Masters

"Masters" is the all in one operational platform for all the users like students to add their own GATE related data individually. User can add & Edit subjects, topics, questions, upload questions and summary also on the GATEtutor from Group Timeline. User can add his own subjects, topics related to GATE & it will appear in Study center. User can also add & upload the questions & give tests for that subjects & topics which are added by him/her. All the activities in the Masters are visible only for those who have done that activity or the group members under the group like added subject, topics, questions etc.

#### 1) Add and Edit Subject

# **XIV. Reports**

"Reports" is a tool which is used to tally & comparison of the performance and activity of the user at the same time on GATEtutor. User can generate the reports as per performance like **Friend wise** and **Test wise** reports of group members on group timeline. User can also see his/her activity log in report format.

A) Performance Analysis (On Group Timeline): To see performance of group

members and yourself as a friend wise & Test Wise Click on **"Performance Analysis"**

# XV. Study Groups

A **study group** is a small group of people who regularly meet to discuss shared fields of study related to GATE online. User can create multiple global groups also.

#### Global Group

When a user is on his/her own timeline & creates a group by clicking on "Add New Group" is created as **global group**. You can also create multiple global groups. Under the global group you can join the members into the group from all over the engineering colleges in India but from the same department only.

#### Create new Global Group

When a user is on Group Timeline & if he/she creates any new group under the existing global group, it will also get considered as "**Global Group**". User can perform here all the activities that he/she can do under the Global Group.

Check in the study groups, the new global group will be seen.

When you create a global group, you will redirect to that group timeline.

You can check that newly created group as above.

You can perform here all the activities that you can do under the Global Group as above (Refer VIII. Global group)

Check the newly created group seen in Study Groups as well.

#### a) Delete Group

If you want to delete the group, you can delete the Group. Just go to that group timeline.

Check that the group is no more in the Study Groups & you will redirect to your own timeline.

## **XV.** Tools

(NOTE: Refer IX. Tools on Own Timeline to see Tools tab)

## XVI. Home

"Home" is a central navigation to return on the timeline by just a single click. When you are using the GATEtutor & want to switch a task, you can use the "Home" button.

It is useful to switch or navigate the task internally. It navigates you to your own Timeline.
